

The **Suite-Goggle** is a revolutionary product for the sterile environment. These goggles are single-use to prevent cross contamination at a very cost-effective price. Individually bagged in clean packaging and gamma irradiated to a 10^{-6} Sterility Assurance Level following AAMI guidelines with quarterly dose audits. The Gamma Goggles have an exceptional anti-fog lens along with micro-breathable top vents utilizing direct ventilation for breathable comfort without fogging. They offer see-through peripheral vision, provide a secure comfortable fit and pass all ANSI-Z87.1 standards for safety.
