

Lift and Rotate

These units require no electricity and can be used anywhere that shop air is available. They require less maintenance than conventional scissor lifts and because there is no hydraulic fluid there is no potential for process contaminations. The addition of a turntable to a new or existing lift table allows workers to be much more efficient. By rotating loads valuable time is saved, and injury risks are reduced by eliminating the need to reach, stretch or walk around loads.

Shown with optional Bellows Skirting.

PNEUMATIC TURNTABLE LIFTS

Features:

- 1000 - 4000 lbs. capacity
- 21" & 24" vertical travel
- Turntable
- Pedestal mounted control
- Optional foot control
- Lifetime warranty on Firestone Actuator
- Air requirements 80 psi @ 15 cfm
- AXR units designed for stationary use
- Optional turret bearing system
- Custom designs available
