

# POLYETHYLENE COATED POLYPROPYLENE SHOECOVERS

## SPECIFICATION SHEET

### FEATURES

- Anti-slip coating on the bottom to make them non-slipping for superior employee safety
  - Clean manufactured and sterilized via gamma irradiation
- 
- Shoecovers made from blue polypropylene film coated polypropylene fabric.
  - These lightweight shoe covers are practically impervious, making them excellent for containing moisture and dirt while repelling moisture and soil.
  - This material provides good resistance to light chemicals and solvents.
  - Textured for better grip to make them non-slipping for superior employee safety.

Part Numbers	A-SCLP-17   A-SCLP-17-IR (Gamma Irradiated)
Size	17"
Color	Purple
Material	Polyethylene
Material Basis Weight	1.5 ounce
Packaging	100 per poly bag, 3 packs per case

**Quality Assurance Criteria:** Guaranteed to be inspected to meet 4.0 AQL level II sampling plan per ANSI/ASQC Z1.4

V.9.BB
