

ANTI-SLIP POLYETHYLENE COATED POLYPROPYLENE SHOECOVERS

SPECIFICATION SHEET

DESCRIPTION

These shoe covers are made from polyethylene film coated polypropylene fabric. The lightweight shoecovers are practically impervious, making them excellent for containing moisture and dirt while also repelling moisture and soil.

FEATURES

- This material provides good resistance to light chemicals and solvents.
- Textured non-slip grip makes them superior for employee safety.

Part Number (White)	A-SCSG-15 A-SCSG-17 A-SCSG-19
Size	15", 17", 19"
Supplier	Benchmark Products
Color	Blue
Material	Compressed polyethylene film coated polypropylene
Material Basis Weight	50 g/m ²
Weight/Piece	8.2 gm
Tensile Strength	50 kg/cm ²
Ultimate Elongation	Approximately 250%
Coefficient of Friction	.625
Packaging	100 per poly bag, 3 bags per case

Quality Assurance Criteria: Guaranteed to be inspected to meet 4.0 AQL level II sampling plan per ANSI/ASQC Z1.4

V.9.BB
