Product Overview & Guides

Kimtech™ M3 Sterile Pouch-Style Face Masks with Knitted Headbands are a smart piece of personal protective equipment (PPE) for your ISO Class 3 and higher cleanroom environment. The individually bagged 7” masks have a low-linting polyethylene film outer layer that provides protection from contamination and the soft inner-facing fabric provides comfort. The pouch-style masks have a large breathing chamber for added comfort, two knit headbands to help ensure a tight facial seal, and a fully enclosed bendable nosepiece. They feature extended “gap guard” material to tuck into the neck of your coveralls or lab coat and have excellent bacterial and particle filtration combined with good breathability. These gamma-sterilized face masks are popular for a variety of environments, including pharmaceuticals and biotechnology.

- 200 Kimtech™ M3 Sterile Pouch-Style Masks (10 Bags of 20), One Size, White
- Excellent bacterial and particle filtration efficiency
- Features two soft knit headbands and a fully enclosed, soft, bendable nosepiece for all-day comfort
- Made of a low-linting polyethylene outer layer and a soft inner-facing fabric; Gamma irradiated with Sterility Assurance Level of 10-6
- Recommended for ISO Class 3 and higher clean room environments
