

# CLEANROOM SAFETY

## STERILE CUT RESISTANT GLOVES

### DESCRIPTION

Experience superior protection without sacrificing precision with our Sterile Suite<sup>®</sup> Cut Resistant Gloves. Our glove liners have been meticulously designed to offer an outstanding balance between robust cut-resistance and superior dexterity. Made from a durable yet comfortable knitted nylon, these glove liners are thin enough to allow for precise movements and tasks while providing robust protection against fine glass shards.

The gloves feature a knitted elastic cuff, ensuring a snug and secure fit. They are ideally suited for tasks like cleaning equipment after ampoule and vial runs, safeguarding your workers within your sterile environments. The cut and abrasion resistant properties, combined with a polyurethane coating and a nylon liner, ensure optimal tactile sensitivity.

### PRODUCT INFORMATION

#### Part Numbers

- G-11-600-6-IR : SIZE 6
- G-11-600-7-IR : SIZE 7
- G-11-600-8-IR : SIZE 8
- G-11-600-9-IR : SIZE 9
- G-11-600-10-IR : SIZE 10

#### Packaging

- 144 Pairs per Case
- Individually Packaged Sterile Pairs
