

CLEANROOM EARLOOP FACE MASKS

SPECIFICATION SHEET

DESCRIPTION

These pleated 3-layer cleanroom face masks are made with lint free spunbound and melt blown soft polypropylene. They offer maximum comfort with latex-free elastic earloops and excellent bacteria and particulate filtration efficiency. Suitable for ISO Class 5 and higher cleanrooms.

QUALITY ASSURANCE CRITERIA

These cleanroom facemasks are packaged in heat sealed bags and guaranteed to be inspected to meet 4.0 AQL level II sampling plan per MIL-STD-150E.

PHYSICAL PROPERTIES

Particulate Filtration Efficiency	>99%
Bacteria Filtration Efficiency	>99%
Front Layer	Spunbound Polypropylene
Back Layer	Spunbound Polypropylene
Center Layer	Meltblown Polypropylene
Earloop	Knitted with Latex-free Elastic

Part Number	A-CLNMASK2-7
Packaging	50/bag, 10 bags/case
Material	Spunbound and Meltblown Polypropylene
Color	Blue
Style	Pleat-Style with Knitted Earloops
Size	7 inches
