

## Benchmarking Sustainability: Green Solutions for a Greener Future

At Benchmark Products, we understand the importance of sustainability in today's world. Our program is designed to help our customers achieve their sustainability goals by focusing on responsible sourcing, waste reduction, and eco-friendly practices.

Our sustainability initiative focuses on recycling single-use cleanroom products such as gloves, garments, and masks. By implementing eco-friendly practices, we help you achieve your Corporate Social Responsibility (CSR) goals while protecting the environment. Embracing sustainability has numerous benefits, including reducing our carbon footprint, conserving natural resources, and minimizing waste. By prioritizing sustainability, we contribute to the global effort to promote a healthier ecosystem.

### Responsible Sourcing

We source materials from suppliers who prioritize sustainability, ensuring that our products meet the highest environmental standards.

### Waste Reduction Initiatives

Implementation of waste reduction strategies across our operations, including recycling programs and minimizing packaging waste.

### Eco-Friendly Practices

Adoption of energy-efficient technologies and practices to minimize resource consumption.

### Sustainable Partnerships

Collaboration with customers, suppliers, and industry partners to advance sustainability initiatives.

## How does it work?

- 1 Get in touch with your Benchmark Products representative via email or reach out to our customer service team at [info@benchmarkproducts.com](mailto:info@benchmarkproducts.com) to learn more about our sustainability program.
- 2 Collect your used and non-hazardous BenchmarkGMP and Suite products and dispose of them in their appropriate recycling box.
- 3 Once full, ship your box(s) back using the pre-paid UPS shipping label which is already affixed to your box. Pallet and full gaylord options are also available. Participants are responsible for paying the shipping costs associated with shipping their used products to our recycling partners via their preferred carrier. The recycling charges are then passed through to participants at agreed-upon intervals.

## What products are recyclable?

Our program is tailored for organizations that utilize BenchmarkGMP products, including apparel, gloves, socks, and facemasks, as well as Suite cleanroom essentials like goggles, pens, Sharpies, and mop frames.

## Why Choose Benchmark?

- ✓ **Environmental Stewardship:** Our program is designed to reduce the environmental impact of our products and operations.
- ✓ **Innovation in Sustainability:** We are continuously exploring new ways to improve sustainability through innovation.
- ✓ **Customer Focused:** We work closely with our customers to align our sustainability efforts with their goals
